

15 September 2005

For immediate release:

**RPA**, Southern California's professional source for turnkey and modular cleanrooms, furniture and support products offers a full line of ergonomic task and special application seating for the cleanroom and for harsh environments, such as those pictured below.

**Gibo/Kodama Chairs** are made in the USA and can be found in cleanroom production lines, biomedical/pharmaceutical labs, and office environments; anywhere productivity is vital to a company's well being. Our technical seating, including ESD and Cleanroom, is used by the top companies of our nation. For more information on cleanroom furniture and task seating please visit [www.rpaproducts.com](http://www.rpaproducts.com) and follow the "Links" to all our cleanroom product manufacturers, including Gibo/Kodama Chairs.
